Journal of Hydrology

Contents of Volume 217

Vol. 217 Nos. 1–2 APRIL 1 1999

Research Papers

Flow and chemical contributions to streamflow in an upland watershed: a baseflow survey
W.J. Gburek and G.J. Folmar 1

Fluorescence wavelength and intensity variations of cave waters
A. Baker and D. Genty 19

A spatial study of the relationships between streamwater acidity and geology, soils and relief (Vosges, northeastern France)
A.L. Thomas, E. Dambrine, D. King, J.P. Party and A. Probst 35

Analytical study of capture time to a horizontal well
H. Zhan 46

Pan-derived isotopic composition of atmospheric water vapour and its variability in northern Canada
J.J. Gibson, T.W.D. Edwards and T.D. Prowse 55

The ISBA surface scheme in a macroscale hydrological model applied to the Hapex-Mobilhy area. Part I: Model and database
F. Habets, J. Noilhan, C. Golaz, J.P. Goutorbe, P. Lacarrère, E. Leblois, E. Ledoux, E. Martin, C. Ottlé and D. Vidal-Madjar . . . 75

The ISBA surface scheme in a macroscale hydrological model applied to the Hapex-Mobilhy area. Part II: Simulation of streamflows and annual water budget
F. Habets, J. Noilhan, C. Golaz, J.P. Goutorbe, P. Lacarrère, E. Leblois, E. Ledoux, E. Martin, C. Ottlé and D. Vidal-Madjar . . . 97

Parameter uncertainty in chemical equilibrium calculations using fuzzy set theory
K. Schulz, B. Huwe and S. Peiffer 119

Dynamics of the evaporation zone in dry sandy soils
T. Yamanaka and T. Yonetani 135

Addendum to unsteady soil erosion model
J.-Y. Parlange, W.L. Hogarth, C.W. Rose, G.C. Sander, P. Hairsine and I. Lisle 149

Discussion

Dependence of rainfall interception on drop size – a comment
R. Uijlenhoet and J.N.M. Stricker 157

Dependence of rainfall interception on drop size – a Reply to the comment by Uijlenhoet and Stricker
I.R. Calder 164

Book Review

Introduction to Stormwater: Concept, Purpose, Design, Bruce K. Ferguson 166

Call For Papers 168

Vol. 217 No. 3–4 APRIL 30 1999

Special Issue: Land surface heterogeneity and scaling in hydrology

Publishers note v

Preface 169

The role of event water, a rapid shallow flow component, and catchment size in summer stormflow
V. A. Brown, J. J. McDonnell, D. A. Burns and C. Kendall 171

On the coarse-graining of hydrologic processes with increasing scales
M. L. Kavvas 191

On the spatial scaling of soil moisture
A. W. Western and G. Blöschl 203

An assessment of effective land surface parameterisation in regional-scale water balance studies
G. Boulet, J. D. Kalma, I. Braud and M. Vauclin 225
Disaggregation, aggregation and spatial scaling in hydrological modelling
A. Becker and P. Braun 239
A hydrological model for predicting runoff from different land use areas
T. Karvonen, H. Koivusalo, M. Jauhiainen, J. Palko and K. Weppling 253
Modelling streamwater quality under varying hydrological conditions at different spatial scales
A. J. Wade, C. Neal, C. Soulsby, R. P. Smart, S. J. Langan and M. S. Cresser 266
Abstract to "On the scale problem in hydrological modelling"
S. Bergström and L. P. Graham 284
Scale dependencies of hydrologic models to spatial variability of precipitation
V. I. Koren, B. D. Finnerty, J. C. Schaake, M. B. Smith, D.-J. Seo and Q.-Y. Duan 285
Atmospheric model data for macroscale hydrology
G. W. Kite and U. Haberlandt 303
A simple water balance model for the simulation of streamflow over a large geographic domain
N. W. Arnell 314
